Find out more!

1. Surprise Fußball

NEW

Wine gift carton in a new design, with surprise effect and fun factor, with scatter print on the outside, with high-quality print on the inside, with brown insert, ready for dispatch

| WK | 3 btls | 360 x 260 x 93 mm | PU = 25 pcs. |

Game instructions

The pitch can be set up in just a few steps and the soccer tournament can begin.

Learn more at:

www.karlknauer.com/surprise

1. Open and unfold the gift box.

2. Break out all jerseys (players).

3. Break out one cue ball (the others are spare balls).

4. Break out/fold down both doors.

5. Assemble gift box.

6. Insert side flap inwards.

7. The pitch is ready and the team is selected (red or blue jerseys).

8. Place players as obstacles on the playing field as desired (see red markings).

9. Place the cue ball on the kick-off point and flick it with your finger.

10. A goal counts as soon as the ball is over the goal line in the goal. The players may not be moved.

11. Who is the football star? Whoever scores a total of 5 goals first.

12. The players are only reseated after a goal has been scored. The line-up is arbitrary, depending on the strategy.

2. Surprise Dark Hole

Going green with Karl Knauer

A natural advantage
Cardboard is made from wood (a renewable raw material), which is why it is particularly environmentally friendly.

Being a family-run company that has its roots in the Black Forest, shouldering **responsibility for people, the environment and nature** has always been a matter especially close to our hearts. So sustainability is a key component of our corporate strategy.

All our services related to Packaging, Promotional Products, Gift Packaging and Mechanical Engineering are geared towards enhancing the **efficiency of processes, conserving resources and minimising emissions**. We have been a member of the CO_2 Climate Initiative of the Printing and Media Industries Federations for over a decade, have received multiple certifications and have received accolades in recognition of our products and our sustainability efforts.

The advantages of Bag in Box by Karl Knauer

- Overpack in high quality offset print underlines the value of the filling material
- Maximum stability and safety, optimum protection of the inside bag with the liquid from outer influences
- Ideal filling of juices
- Cost effective and space-saving transport and storage
- Easy, need-based and drip-free product removal

- Long product shelf life and freshness without deterioration of quality
- "Self-explanatory" packaging for ease of handling
- More economic to fill than bottles
- Positive energy balance in manufacturing compared to glass bottles
- Bag and carton are easy to separate and generate a low volume of waste to be disposed of
- Many 5 litre motifs with convenient support for easy pouring available
